

## Development at Ras Al Khaimah International Airport

Ras Al Khaimah International Airport is undergoing several changes. In the next year, the airport will see the opening of a new arrivals terminal as well as a revamped departures terminal. The two new terminals will cater for the needs of Ras Al Khaimah Airways as well as other airlines entering the network. The duty free stores are also a focal point for growth and expansion at the airport.

Michelle Soliman, CEO of Ras Al Khaimah International Airport said, "At Ras Al Khaimah Airport we certainly have a different atmosphere. We are able to give a more personalised service. Being a smaller airport we are finding our own niche."

Ras Al Khaimah is currently developing itself as a tourism destination and the airport will hope to be ready to cater for the expected growth of tourists to the region.
